

ACCESS YOUR HEALTH RECORDS

Help to design the new smartphone app that will allow you, our patients and service users access your own care records and to keep track of your health.

How can you get involved?

We need service users, carers and clinicians to help design and pilot this new platform to make sure that it is useful and usable.

You could:

- attend interviews
- take part in workshops
- complete surveys
- test prototypes
- send us feedback
- be part of the pilot.

Fancy taking part?

Send an email to gde@merseycare.nhs.uk and let us know you'd like to be a part of the project.

Or, if there is a box available, put your name and email address on one of the cards provided and pop it in the box and we will be in touch.
